

Climate Smart Communities Initiative Grantmaking | 2024-5

\$3.3M

TOTAL AWARDED

32

COMMUNITIES FUNDED

389

APPLICATIONS RECEIVED

U.S. communities face urgent, compounding climate risks and many lack the funding, capacity, and technical expertise to plan and implement effective climate resilience strategies. As a public-private partnership, CSCI bridges the gap using a model that brings grant dollars and a full ecosystem of support to communities to advance adaptation and resilience across the country. Learn how to get involved!

GRANTS TO COMMUNITIES

Funding for U.S. communities and practitioner teams pursuing climate resilience projects. The entry point to CSCI's full support ecosystem.

COMMUNITIES

COHORT SUPPORT

Peer learning, technical guidance, and expert assistance offered to awarded communities during their 12-month grant period.

GRANTEES

REGISTRY OF ADAPTATION PRACTITIONERS

A database of organizations able to assist communities, and which makes them eligible for a grant.

PRACTITIONERS & COMMUNITIES

EVALUATION & INNOVATION

Monitoring and evaluation to track outcomes, accelerate learning, and improve practice for future cohorts and the adaptation field.

PROGRAM WIDE

TRAINING

The Steps to Resilience training offered to grantees and the broader field to support workforce development nationwide.

OPEN TO ALL

HELP DESK

Free expert guidance on climate adaptation and resilience, available to any practitioner or community member, no grant required!
